AI results

Likely original

100% confidence

Model used:

Lite 1.0.2

The most accurate AI Detector for ChatGPT, GPT-4o, Gemini Pro, Claude 3.5, Llama 3.1 and other popular AI writing or paraphrasing tools.

How to read the AI score?

This score is a confidence score. If the score is 90%, it should be read as "We are 90% confident that this is AI generated" NOT that 90% of text pasted is AI generated.

Plagiarism results

0% match

Matched Websites	0
Matched Phrases	0

Our most accurate plagiarism checker uses advanced machine learning to detect complex forms of patchwork, unintentional & mosaic plagiarism, and more.

Most plagiarized sources:

Fact checking

50% true

Facts potentially true	1 / 2
Facts potentially false	1 / 2

Our accurate real-time and automated fact checker utilizes the latest information available to provide accurate and up-to-date factual assessments.

What does the fact checking score mean?

Each fact detected receives a truthiness score (% potentially true or false), a justification for that result, and any related sources if available.

Document report

Readability results

Flesch-Kincaid reading ease

53.2 (Ideal: 45-60)

FORCAST grade level: 12.1 (Ideal: 12-14)

Gunning Fog Index: 13.7 (Ideal: 11-13)

Dale-Chall Index: 5.3 (Ideal: 6-7)

Check your writing across multiple formulae and make your message clearer and more accessible to your audience.

What do the readability scores mean?

Readability refers to how easy or difficult it is to read a piece of writing. The score is influenced by factors like sentence structure, word choice, and overall organisation of the text.

Grammar & spelling

100.00% correct

Spelling issues	0
Grammatical issues	0

Enhance your text and check your Grammar & Spelling through our best in class AI enabled Grammar & Spell Checker.

How to read the Grammar & Spelling score?

This percentage score is based on the number of spelling or grammar suggestions per 100 words. A document with no suggestions scores 100%.

Opinions are divergent in that whether we should s

Opinions are divergent in that whether we should share information as possible as we can in all fields. Some believe sharing that kind of knowledge online will lead to global development whereas others claim that some information is not suitable for sharing for free. One common reason for people to sharing resources is that they would like to make others convenient. Due to the Internet, if we update the knowledge on our blogs, everyone can find it immediately. Also, for the second reason, they may believe information in science researches, Business, and so on is contributed to improve society around the world. That is, people can easily seek out knowledge they want, and they can make use of it to modify their prototype.
